

## GCSE Combined Science GCSE Triple Science

YEAR

**9**

End of year test

Recycling

Controlling a cell

Reactions 2 and  
Reactions of acids

Material cycle

Energy transfers

Forces and speed 2

Waves and light

The periodic table

Electricity and magnets

Separating mixtures

Extinction and changes over time

Density

Tissues and cells

Non-communicable diseases

YEAR

**8**

End of year test

Energy stores

Pure/impure substances

Reactions

Healthy diet

Acids and alkalis

Reproduction

Speed and forces

Current, static and magnets

Atoms and elements

Earth and seasons

Ecosystems

YEAR

**7**

The Particle model

Organ systems

Rock cycle
